

ALANYA NATURAL LIFE PARK

ZEYTINADA
NATURAL LIFE

The Natural Life villa project includes a plot of around 9,000m², embedded in 50 hectares of forest.

The access to the property is over an asphalt road possible.

The resort is 1.8 km from the main road Alanya Anamur away, the travel time to Alanya Airport takes a maximum of 30 minutes.

The resort is built on a coastal slope with an unrestricted view of the sea, the distance to the sea is 500-1.000 meter.

ALANYA NATURAL LIFE PARK

A total of 40 villas will be built with a specially chosen orientation for uninterrupted sea views.

The resort has two central
Located pools with lots of sunbathing areas as well as a children's playground.

There is a central, semi-covered one
Car parking space available.

The entire facility is supplied with natural spring water via a well drilled from a depth of 170m.

ALANYA NATURAL LIFE PARK

Each villa has 102m² (2+1) with an open kitchen area, 2 bathrooms/toilet. Each house also offers a fantastic roof terrace and veranda.

Each villa has its own garden area and whirlpool available, and has also has extensive basic equipment.

The construction is about a light steel construction with efficient boron foam insulation. The hot water preparation is carried out using (solar) electricity, and if necessary, cooling or heating is carried out using three inverter air conditioning systems.
